War.

Shapel Hill, N. C., June 2.—Those students who left the University of North Carolina during the War Between the States, were memorialized to-day, when Governor Craig presented for the State the monument erected in their honor.

Governor Craig described the entrance of Sherman's army and the prayer meetings held for protection by the desolate families who hadsent their sons to war, never to return. "The university was consumed by the war," he said, "only one member of the class of 1865 gradunting." He said that every member, eighty-four of the 1860 class, went to the army without compensation, and more than a fourth of the members never returned home. Describing the bronze statue, he said. "A new generation will read its meaning when we dedicate the monument today, as a covenant that we, too, will do our tasks with courage and fidelity."
